9. User-Facing Features and Conversion Elements

CUSTOMER JOURNEY

- **Navigation and content discovery:** The site organizes information into company, services, solutions, portfolio, and contact areas, guiding visitors from initial research to reviewing relevant work and contacting the team.
- **Consultation calls to action:** "Book a Free Consultation" and "Contact Us" buttons provide a clear next step for visitors considering a project.
- **Portfolio filtering:** Categories such as All, Web, Apps, and Game help visitors narrow the project showcase by type.
- **Service and capability browsing:** Service cards, technology lists, and solution descriptions let visitors explore expertise before contacting the company.
- **Trust-building content:** Metrics, testimonials, client references, and project examples are intended to reduce uncertainty. Inconsistent published metrics should be reviewed.
- **Lead-capture form:** The form gathers identity, company, email, service interest, budget, and project context to help categorize inquiries.
- **Contact and support information:** Published email, telephone, and office address provide contact routes; FAQs, news, policies, and collaboration links provide further context.

Observation note: This report records visible elements only. It does not confirm form delivery, CRM or analytics integrations, or that every control works on every device.

10. Company Background and Contact Details

CORPORATE PROFILE

Company story, mission, and vision: The About page describes Cloud Production LTD as a Japan–Bangladesh joint venture serving since 2018. Its stated mission is to empower businesses and individuals through customized technology solutions; its stated vision includes developing Bangladeshi developers for the global stage.

Milestones described on the website: The timeline references incorporation and an initial team in 2018; entry into Japan and offshore expansion in 2019; a strategic partnership with Arousal Tech in 2020; in-house products such as HRMS and a job portal in 2021; wider services in 2022; and a flagship Dhaka office in 2023.

> **Published Contact Information — Cloud Production LTD**
>
> **Address:** 2nd Floor, 273/3, Dhaka Cantonment, Mirpur Link Road, Dhaka-1206, Bangladesh.
> **Email:** info@cloudproductionltd.com | **Additional email:** admin@cloudproductionltd.com

>
> Confirm that the listed contact details and inboxes are current before using them for formal communication.

11. Notes and Items to Validate

GOVERNANCE CHECKLIST

- **Company metrics:** Different pages or snippets show differing totals for projects, team members, and related figures. Approve a single current set and use it consistently.
- **Recent work claims:** Confirm each project description matches the actual implemented features, integrations, and production status before publishing.
- **Contact details:** Confirm that listed email addresses and phone number are active.
- **Package pricing:** Confirm currency, staffing assumptions, inclusions, exclusions, contract length, and whether monthly starting prices are current.
- **Portfolio permissions:** Confirm which project names and technical details are approved for public use.
- **Technical quality:** This is not a review of performance, accessibility, SEO, security, analytics, or responsive behavior. Those require separate testing.

12. Source Pages and Scope
